# At home on any roof. novotegra mounting systems

Technical innovations and products alone are not enough.  
With the right partner at your side, you will be in a perfect position.

Here at novotegra GmbH, we manufacture our own mounting systems, specially developed for photovoltaic installations. We distribute all the components required to safely install photovoltaic systems via our Europe-wide wholesale business. Our systems can be installed on practically any common roof type, from standard pitched roofs and flat roofs to special solutions and façades. Installers can rely on our high quality solutions.

Experience built in as standard. We are able to draw on more than two decades of experience in the development of mounting systems. Our solutions have been used successfully since the 1990s and we have been constantly and consistently improving our knowledge since then. The pioneering novotegra mounting system in its current form was first created in 2006, and has been proving itself on roofs all over Europe for 15 years.

Not one single solution for all, but the right solution for everyone. We developed our mounting systems by collaborating closely with the installer. Besides working in the office and on the test bench, our developers can be found on-site wherever our products are used. At construction sites, we familiarise ourselves with the work carried out by installers — down to the very last detail. Thanks to this valuable practical experience, we have developed a flexible system that meets all our needs of the customers.

# The perfect solution for every roof

Our photovoltaic mounting systems have performed successfully on the market for many years now – and worldwide.

A partnership-based working model. In addition to providing the perfect equipment, we also share our comprehensive know-how with the installer. We provide advice already in the planning stage of an installation. Anyone using novotegra for the first time will be supported by one of our installation experts, who will spend a whole day on the construction site and share a wealth of tips and tricks. And all that is free of charge. As the world of photovoltaics is constantly evolving, we ensure that our partners are always up-to-date with the very latest information in solar technology by attending specialist seminars, webinars and information events.

Uncompromising quality. At our company, development, technical service and purchasing go hand in hand to ensure that all components are tailored to our customers' needs. Since the highest quality is our top priority, we subject all our products to strict quality controls. Our customers can rely on only receiving precisely manufactured, durable and corrosion-resistant components. In addition, they benefit from short supply chains and can be sure that everything will arrive where it is needed, on time.

No empty promises of quality, just reliable certifications. All novotegra mounting systems are developed by our engineers at the company headquarters in Germany. To ensure they meet our high standards, the systems are subjected to extensive tests — both in our in-house test laboratories and at independent institutes. In addition to certifications from TÜV Rheinland and building authority approvals, our mounting systems have been awarded the CE mark, as well as ETN and MSC certifications for the French and British markets. As we are convinced of the reliability and high quality of our products, we offer our customers a 12-year guarantee on our mounting systems.

Sustainability is our key goal. That is why novotegra system parts are extremely durable. If they do need to be replaced at some point after a very long period of use, they can be fully recycled. We also think it is important that our suppliers use renewable energies in their production. For us, however, sustainable action is not simply limited to the environment. We are equally committed to society. As such, we have been working with non-profit workshops and organizations in Baden-Württemberg for many years. Here, people with disabilities or mental illness are given the opportunity to work.

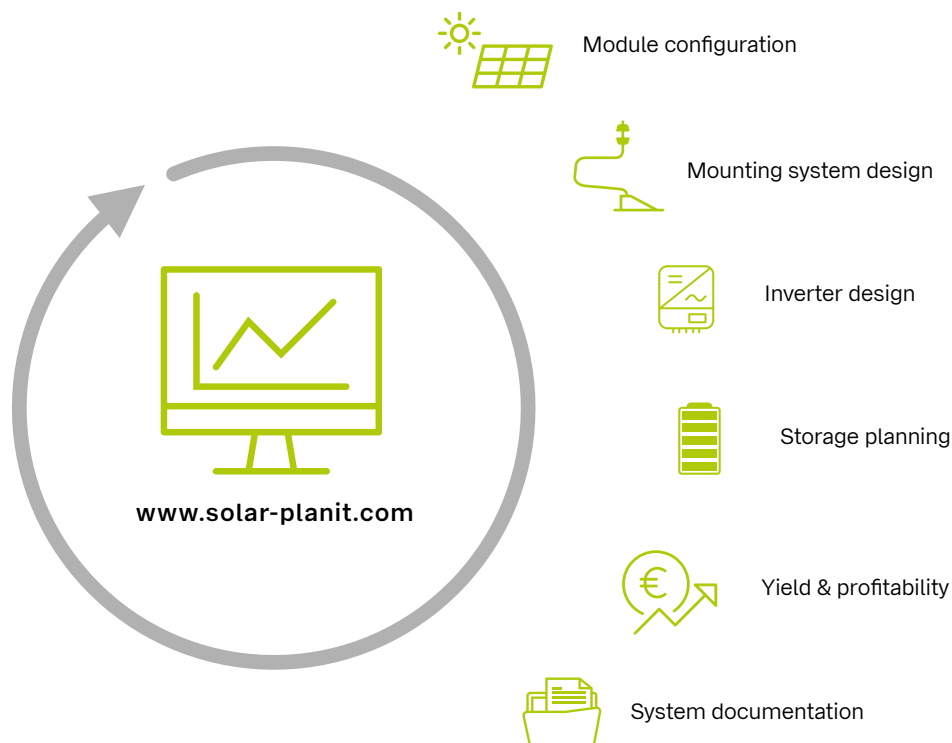

*We do a lot to ensure the success of our customers. High-quality products and optimal service are crucial here.*

Thomas Pfaff, Managing Director

# All in one: complete system planning with Solar-Planit

Mounting system layout with Solar-Planit: Simple, clear, free of charge and web-based planning for your next installation. Solar-Planit lets you keep control of costs and statics.

## Your project

- Define location and roof features individually for your project
- Select module and mounting system design – from tile roof to flat roof
- Plan the module configuration – easily plan around chimneys, skylights and dormers
- Perform a structural analysis and optimise the system – in line with the Eurocode standard for many European countries
- Benefit from automated transfer of material parts list to the web shop

## Your result

- complete overview of the structural analysis, material requirements and costs
- System project reports – documentation for you and your customers by just pushing one button
- Independent and self-contained planning – this web-based solution makes short administrative paths possible for project collaboration either with your team or with our sales team

## Your benefits

- Complete system planning, from installation to economic – always up to date
- Free and web-based
- Static calculation according to Eurocode
- Determination of yield, profitability and own consumption ratio
- Free webinars on how to use Solar-Planit

# We are there where our customers need us

Sales are handled by the BayWa r.e. trading companies throughout Europe. This means we are very close everywhere and provide local..

Exemplary availability. We offer our customers everything they need for assembling their installations. Our complete range is available in our wholesalers' warehouses throughout Europe and can be delivered fast. A comprehensive logistics network guarantees a very high availability of our components, even for less common roof types. By collaborating closely with forwarding agents that operate internationally, our sales partners ensure that all orders arrive promptly at the construction site.

Close by — everywhere. novotegra is where our customers are. Together with our sales partners, we have built up a Europe-wide network that acts as a direct link to our installation experts on-site. Whether you are in Scandinavia or in Southern Italy, whether you are in Spain or in Poland, our professional sales team is there to offer our customers advice and support.

We provide the solution, you  
provide the challenge.

# Certifications and Approvals

novotegra stands for quality, high-end materials and reliable production. Together with our long-standing partners and independent institutes we ensure that this remains in the future.

## CE marking

The in-house monitoring for the mounting system by novotegra GmbH meets all mandatory requirements stipulated in EN 1090-1:2009+A1:2011, Annex ZA as the foundation of the CE marking within the framework of the EU Regulation no. 305/2011 (Construction Product Regulation – CPR). Execution in accordance with EN 1090-2 and EN 1090-3, EXC1.

## General approvals by the building authorities

For your safety, we had the static calculations of relevant parts of the system checked by independent authorities. We received the following general approvals from Deutsches Institut für Bautechnik (German Institute for Structural Engineering):

- Z-14.4-716: Connections for PV mounting systems
- Z-14.4-723: Rail connectors and base profile
- Z-14.4-735: Module attachments, module supports, cross rail connectors
- Z-14.4-741: Roof hooks, stock screws, attachments to the rail base

## TÜV Rheinland certification

The reliability and quality of our mounting system has been certified with the TÜV Rheinland test mark.

The inspection catalogue for the certification includes all building law and technical requirements that mounting systems must meet. This ensures that all our photovoltaic mounting systems are produced in the same way as the tested systems – with the same materials and processes and thus with the same quality.

By the way: our sales and support services also convinced the auditors.

## Structural analysis calculation with Solar-Planit

With our planning tool Solar-Planit, you can see the system structural analysis of our mounting system at the push of a button – and for free! The load determination for the structural analysis of the substructure is based on the specifications of Eurocode 1. The only exception is Switzerland, where load is determined according to SIA 261 (2003) specifications.

Information on further international certificates can be obtained from your contact person.

## EUPD Research

EUPD Research is an international market research and consulting company with a special focus on renewable energies and corporate health. The core business is the independent brand evaluation of manufacturers and wholesalers. The "Top Brand PV" award is the most recognised and prestigious certification in the international PV industry and stands for reliability and trust in the eyes of target groups and business partners.

## Certification according ISO 9001:2015

Quality does not come by itself - it must be planned, controlled and monitored. Well-designed workflows and customer-oriented processes contribute greatly to the quality of our mounting system. In a monitoring audit by TÜV SÜD, we were now able to prove the successful implementation of this quality management standard.

## Certification according ISO 14001:2015

We not only deal intensively with the topic of sustainability in the form of our business field, but the topic also plays an omnipresent role in our everyday work and our business processes. TÜV SÜD has now confirmed that we are already on the right track!

"novotegra has been offering photovoltaic mounting systems for more than 15 years. These are characterised by high quality, durability, stability and simple and safe installation. In addition, novotegra has always been concerned that its products also meet the highest environmental criteria. We are pleased that we have now been awarded the successful ISO 14001 certification, which confirms that novotegra GmbH has established a systematic environmental management system. Environmental protection and sustainability are deeply rooted at novotegra and fit seamlessly into BayWa r.e.'s claim "For our Planet!"

Alexander Kitzia, Head of Purchasing

## Tile roof | clamping system top-fix

Clamping system with modules installed in portrait

### Powerful, stable and flexible

- components usable across different roof types
- module landscape installation possible with cross layer system
- only two clamps for all frame heights in blank and black anodized

### Product variants

- flex roof hook for low loads
- roof hook versions for 40mm battens available
- double roof hooks for heavy loads
- rails and clamps available in blank and black anodized

### Your benefits

- three-way adjustable roof hook to level out uneven roofs, for different tile strengths and shapes
- quick mounting from above with easily graspable components
- narrow tile gap and centric load distribution
- the C-rail also acts as a cable channel

## Beavertail tile roof | clamping system top-fix

Clamping system on beavertail tile roofing with modules installed in portrait

### Solution for beavertail tiles

- components usable across different roof types
- module landscape installation possible with cross layer system
- only two clamps for all frame heights in blank and black anodized

### Product variants

- roof hook flex for lower loads or 40mm battens
- roof hook beavertail available also as double roof hook
- rails and clamps available in blank and black anodized

### Your benefits

- three-way adjustable roof hook to level out uneven roofs, for different tile strenghts and shapes
- the C-rail also acts as a cable channel
- no beavertail sheet metal tile required
- narrow tile gap and centric load distribution

Chipless screwing for high holding forces

## Trapezoidal metal roof | clamping system

Clamping system with direct fixing and modules installed in portrait

### Vertical module installation – always the right solution

- module clamping in the optimum clamping range
- reduced logistical effort on the roof
- quick and efficient mounting from above
- electrically conductive connection between the mounting system and the roof membrane

### product variants

- short rail C24 for the yield-optimised installation or the project business
- short rail C47 for excellent module rear ventilation with extra space to the roof covering
- optional mounting with C-rail pieces, suitable for roofs with low load reserve, C-rail acts as cable channel

### Your benefits

- only a handful of components, entirely pre-assembled
- low material costs and easy handling
- high holding forces thanks to chipless direct fixing with building authority-approved thin sheet screws
- only one mounting tool necessary

Versions of short rail 385 mm with EPDM seal

## Trapezoidal metal roof | insertion system

Insertion system with direct fixing and modules installed in portrait

### Combined – insertion rails on short rail

- components usable across different roof types
- excellent rear ventilation of the module
- mounting modules in portrait or in landscape

### product variants

- short rail C24 for the yield-optimised installation
- short rail C47 for excellent module rear ventilation with extra space to the roof covering
- insertion rail in blank and black anodized – color matching the module

### Your benefits

- only a handful of components – quick assembly
- high-end installation aesthetics and time-efficient mounting thanks to insertion technology
- high holding forces thanks to chipless direct fixing with building authority-approved thin sheet screws
- tension-free and floating module mounting

## Trapezoidal metal roof | insertion system

Insertion system with direct fixing and modules installed in portrait

### Convincing quality for your trapezoidal roof

- only a handful of components – quick assembly
- mounting modules in portrait or in landscape
- insertion rail is fixed directly to the trapezoidal sheet via trapezoidal sheet bracket

### product variants

- insertion rail in blank and black anodized in different heights for all modules

### Your benefits

- high-end installation aesthetics and time-efficient mounting thanks to insertion technology
- high holding forces thanks to chipless direct fixing with building authority-approved thin sheet screws
- tension-free and floating module mounting

Slip guard for fixing modules in landscape

Slip guard for fixing modules in portrait

# Mounting solutions for trapezoidal roofs

Roof-parallel applications with direct fixing

## Your benefits

- clamping and insertion systems for mounting modules in portrait or in landscape
- only a handful of components, low installation workload and cost-effective
- quick mounting thanks to direct fixing with chipless screws

Clamping system: In portrait short rail

Clamping system: In landscape short rail

Insertion system: In portrait trapezoidal sheet bracket

Clamping system: In portrait rail pieces

Insertion system: In landscape short rail

# Mounting solutions for trapezoidal roofs

## Elevated applications with direct fixing

Insertion system: South-facing with triangle on bridge

Clamping system: South-facing

Insertion system: South-facing with triangle on east-west roof

Clamping system: South-facing on east-west roof

## Your benefits

- for elevation angles of 3 - 18° or 13 - 40°
- module elevation solutions for all roof orientations
- insertion system with elevation triangles for direct fixing

Clamping system: In portrait

## Trapezoidal metal roof | elevation

Clamping system with direct fixing and modules elevated in portrait

### Elevation on trapezoidal metal roof - High module efficiency and quick installation

- module clamping in the optimum clamping range
- reduced logistical effort on the roof
- quick and efficient mounting from above
- electrically conductive connection between the mounting system and the roof membrane

### Product variants

- short rail C24 for the yield-optimised installation or the project business
- short rail C47 for excellent module rear ventilation with extra space to the roof covering

### Your benefits

- higher module efficiency thanks to 5° elevation angle
- low material costs and easy handling
- high holding forces thanks to chipless direct fixing with building authority-approved thin sheet screws
- only one mounting tool necessary

Variant with landscape mounted modules

Module support low and module support high with middle clamp in short rail C24 385mm

Hole pattern short rail for portrait

Chipless screwing for high holding forces

Versions of short rail 385 mm with EPDM seal

Fast and easy mounting

## Corrugated and sandwich roof | clamping system

Single-rail clamping system with modules installed in landscape

### Simple mounting system technology

- components usable across different roof types
- module portrait installation possible with cross layer system
- only two clamps for all frame heights in blank and black anodized

### product variants

- also suitable for sandwich and trapezoidal roofs
- stock screws for wooden and steel purlins
- stock screws for wood available in M10 and M12

### Your benefits

- completely pre-assembled stock screws with centric load distribution
- big span lengths possible (C-rail 71-2 / C-rail 95-3)
- C-rail also acts as a cable channel
- solutions for timber and steel purlin

Centric load distribution in to the stock screw

C-rail for various spans

C-rail as cable channel

and sandwich roof

# Mounting solutions for corrugated and sandwich roof

Clamping system: Single-rail in landscape

Insertion system: In portrait

Clamping system: Cross-rail in portrait

Insertion system: In landscape

Clamping system: Cross-rail in landscape

Insertion system: In landscape

## Your benefits

- clamping and insertion systems for mounting modules in portrait and in landscape
- centric load distribution to the stock screw, making the system suitable for very heavy loads
- rail with an integrated cable channel and room for plugs
- quick mounting from above with easily graspable components

## Seamed metal roof | clamping system top-fix

Single-rail clamping system with modules installed in portrait

### Perfect for seamed metal roofs

- excellent module rear ventilation
- installation-friendly clamps with a click-in mechanism
- components usable across different roof types
- quick and efficient mounting from above with easily graspable components
- components

### product variants

- also suitable for standing seam roofs made of copper
- seam clamps for standing seam and round seam
- rails and clamps available in blank and black anodized

### Your benefits

- only a handful of components – entirely pre-assembled
- centric load distribution
- C-rail also acts as a cable channel
- quick mounting from above with easily graspable components

Rounded seam clamp

Centric load distribution in to the seam clamp

C-rail as cable channel

## novotegra | clamping system

## Pic Designation

- 1 Middle and end clamp
- in blank / black for all frame heights
  - installation-friendly thanks to click-in mechanism

- 2 C-rail
- available in different strength and lengths
  - can be stepped on throughout installation

- 3 End cap
- for optically tidy rail ends
  - UV and weather resistant

- 4 Seam clamp
- centric load distribution
  - completely pre-assembled

- 5 A2SS saddle
- for copper roof
  - prevents oxidation of the component

C-rail connector extern

Clamp with VA saddle for copper standing seam roofs

## Seamed metal roof | insertion system top-fix

Single-rail insertion system with modules installed in landscape

### Perfect aesthetic and high efficiency

- clamping technology with clamping points on the seam flanging
- mounting modules in portrait or in landscape
- quick and efficient mounting from above
- Clamp for insertion system on standing seam roof completely pre-assembled with cross rail connector

### product variants

- also suitable for standing seam roofs made of copper
- insertion rail in blank and black anodized – color matching the module

### Your benefits

- high-end installation aesthetics and time-efficient mounting thanks to insertion technology
- only a handful of components – quick assembly
- cost-optimised single-rail system
- tension-free and floating module mounting

The corresponding screws can be found on page 92.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000756	Roof hook adjustable 633 vertical	100	70	41–56	Alu cast / A2SS

### Roof hook tile roof

Roof hooks for mounting N-rails as vertical rails, rail-roof hook connection height-adjustable in slot  $8.5 \times 35$  mm with fluting up to 26 mm, for tile overlap up to approx. 100 mm and 30 mm roof battens. The corresponding screws can be found on page 92.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000731	Roof hook ZD 533 vertical	181	71	46	Alu cast

### Roof hook tile roof

Roof hooks for mounting N-rails as horizontal rails, rail-roof hook connection height-adjustable in slot  $8.5 \times 35$  mm with fluting up to 26 mm, for tile overlap up to approx. 100 mm and 30 mm roof battens. The corresponding screws can be found on page 92.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000611	Roof hook ZD 544 horizontal	181	71	46	Alu cast

## Roof attachment

### Roof hook beavertail

Roof hooks for mounting C-N-/N-rails as vertical and horizontal rails on roofs with beavertail tiles, rail-roof hook connection with L-adapter in slot 11 × 41 mm, for 24 mm roof battens. As a set with underlay plate, screws and sealing wedge, for beavertail double tile formation.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000410	Roof hook BS C-shape A2SS	300	30	120	A2SS
03-000411	Roof hook set BS C-shape A2SS with sheet	300	30	120	A2SS
03-000412	Metal sheet zinc-plated, for plain tile	300	30	120	A2SS

### Roof hook slate

Roof hooks for mounting C-N-/N-rails or C-rails as vertical and horizontal rails on roofs with slate or shingle roofing, rail-roof hook connection with L-adapter in slot 11 × 41 mm or as a set with round-head screw M10, with flat foot area.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000694	Roof hook S C-shape A2SS	250	30	70	A2SS
03-001219	Roof hook set S C-shape A2SS M10	250	30	70	A2SS

### Shim for roof hook ZD 30 N35

Shim for side-fix roof hooks for height compensation between the roof hook and the roof batten.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001338	Shim for roof hook ZD 30 N35, 2mm				PP
03-001339	Shim for roof hook ZD 30 N35, 5mm				PP

### Shim for roof hook ZD 544 und 533

Shim for side-fix roof hooks for height compensation between the roof hook and the roof batten.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000979	Shim for roof hook PP blue, 2mm				PP
03-000980	Shim for roof hook PP grey, 5mm				PP

## Roof attachment

### Roof hook mounting screws

6 mm wood screw with flange head and Torx drive 25, can be used for various roof hooks.

Art.-Nr. Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000268	Roof hook mounting screw 6 × 30	30	6		St. galv.
03-000269	Roof hook mounting screw 6 × 60	60	6		St. galv.
03-000271	Roof hook mounting screw 6 × 90	90	6		St. galv.
03-000272	Roof hook mounting screw 6 × 120	120	6		St. galv.
03-000273	Roof hook mounting screw 6 × 150	150	6		St. galv.
03-000270	Roof hook mounting screw 6 × 30 A2SS	30	6		A2SS
03-000274	Roof hook mounting screw 6 × 60 A2SS	60	6		A2SS
03-000278	Roof hook mounting screw 6 × 90 A2SS	90	6		A2SS
03-000279	Roof hook mounting screw 6 × 120 A2SS	120	6		A2SS
03-000280	Roof hook mounting screw 6 × 150 A2SS	150	6		A2SS

### Roof hook mounting screws

8 mm wood screw with flange head and Torx drive 40, can be used for various roof hooks, with underhead thread for lengths longer than 180 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000281	Roof hook mounting screw 8 × 100	100	8		St. galv.
03-000282	Roof hook mounting screw 8 × 140	140	8		St. galv.
03-000283	Roof hook mounting screw 8 × 180	180	8		St. galv.
03-000303	Roof hook mounting screw 8 × 220	220	8		St. galv.
03-000304	Roof hook mounting screw 8 × 260	260	8		St. galv.
03-000305	Roof hook mounting screw 8 × 300	300	8		St. galv.
03-000306	Roof hook mounting screw 8 × 340	340	8		St. galv.

### Roof hook mounting screw

Wood screw countersunk with AW drive 30, can be used for roof hook S C-shape.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000486	Roof hook mounting screw 6x80 countersunk	80	6		A2SS

# Roof attachment

## Mounting screws bitumen roof

Roof boarding wood mounting screw for attachment of short rails on bitumen roofs with wood boarding. With 16 mm sealing washer, 8 A/F hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001475	Roof boarding wood mounting screw 6,5 x 50 E16	50	6	16	A2SS

## Direct mounting screws trapezoidal sheet

Thin sheet screw for chipless attachment of short rails on the trapezoidal sheet, with 16 mm or 11 mm sealing washer depending on the fixing variation on the raised bead, 8 AF hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000880	Trapez. mounting screw cl 6.0 x 25 E16	25	6	16	A2SS
03-000893	Trapez. mounting screw cl 5.5 x 25 E11	25	5.5	11	A2SS

## Direct mounting set trapezoidal sheet

Mounting set consisting of 2 self-drilling screws with 8 AF hexagon drive and an EPDM sealant strip 130®x®45 mm for fixing base profiles on the trapezoidal sheet.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000062	Direct base profile mounting set	25	6	16	V2SS / EPDM

## Indirect mounting set base profile

Mounting set consisting of 4 self-drilling screws with 8 AF hexagon drive for fixing the base profile on the C-rail.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000065	Indirect mounting set for base profile	25	6	16	A2SS

## Roof attachment

### Direct mounting set trapezoidal sheet

Mounting set for chipless fixing of C-rails on the trapezoidal sheet, pre-assembled thin sheet screw with washer and EPDM seal, 8 AF hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000197	C-rail direct mounting set cl	25	6	30	A2SS / EPDM

### Trapezoidal sheet brackets

Bracket with EPDM seal for fixing insertion rails on trapezoidal sheet, with two thin sheet screws with 8 AF hexagon drive, for bead heights from 25 mm or 35 mm, for framed or frameless module insertion rails.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000459	Trapezoidal sheet bracket IR set 40 × 126 mm	126	40		V2A
03-000451	Trapezoidal sheet bracket IR FL set 45 × 141 mm	141	45		V2A

## Roof attachment

### Stock screws (for wood)

Stock screw for timber purlins with hexagon drive 7 AF or 9 AF, for mounting C-rails or base plates, pre-assembled with EPDM seal and 18 AF locking nuts. Alternative packing units see p. 86.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000222	Stock screw set (for wood) M10 200mm	75	25	100	A2SS / EPDM
03-000223	Stock screw set (for wood) M10 250mm	75	75	100	A2SS / EPDM
03-000224	Stock screw set (for wood) M10 300mm	75	75	150	A2SS / EPDM
03-000211	Stock screw set (for wood) M12 200mm	75	25	100	A2SS / EPDM
03-000210	Stock screw set (for wood) M12 250mm	75	75	100	A2SS / EPDM
03-000216	Stock screw set (for wood) M12 300mm	75	75	150	A2SS / EPDM

### Stock screws (for wood)

Stock screw for timber purlins with hexagon drive 5 AF, for mounting C-rails or base plates, with 18 AF locking nuts, combinable with EPDM round seal d = 25 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000894	Stock screw set (for wood) 8,4-M10 160mm	70	10	70	A2SS
03-000895	Stock screw set (for wood) 8,4-M10 190mm	90	20	70	A2SS
03-000940	Stock screw set (for wood) 8,4-M10 210mm	100	30	70	A2SS
03-000941	Stock screw set (for wood) 8,4-M10 240mm	120	40	70	A2SS
03-000942	Stock screw set (for wood) 8,4-M10 260mm	130	50	70	A2SS

### Stock screws (for steel)

Stock screw for steel purlins with hexagon drive 5 AF, for mounting C-rails or base plates, with 18 AF locking nuts, combinable with EPDM round seal d = 25 mm. Alternative packing units see p. 86.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000199	Stock screw set (for steel) 8,0-M10 140mm	65	10	50	A2SS
03-000202	Stock screw set (for steel) 8,0-M10 185mm	65	55	50	A2SS
03-000203	Stock screw set (for steel) 8,0-M10 220mm	65	90	50	A2SS
03-000943	Stock screw set (for steel) 8,0-M10 260mm	65	130	50	A2SS

## Roof attachment

### Standing seam clamp

Clamp with grub screw for standing seam roofs and an 18 AF locking nut for fixing C-rails, optionally with stainless steel saddle for mounting on copper roofs. Alternative packing units see p. 86.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000219	Standing seam clamp set M8	7,4	30	17	Alu / A2SS
03-000369	Standing seam clamp set M8 for copper	7,4	30	17	Alu / A2SS

### Standing seam clamp insertion system

Clamp with grub screws for standing seam roofs, grub screw with hexagon AF 5 drive, pre-assembled with cross rail connector IR and hexagon screw AF 13 for direct fixing of insertion rails. An additional stainless steel saddle is required for mounting on copper roofs. Alternative packing units see p. 86.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001028	Standing seam clamp set 150 M8 IR	7,4	150	17	Alu / A2SS
03-001135	A2SS-saddle for standing seam clamp 150	7,4	150	17	A2SS
03-001466	Standing seam clamp set 150 IR M8 for copper	7,4	150	17	Alu / A2SS

### Rounded seam clamp

Clamp with grub screw and cylinder head screw with hexagon drive AF 5 for round seam roofs and an 18 AF locking nut for fixing C-rails. Alternative packing units see p. 86.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001069	Rounded seam clamp set M8	24	30	36	Alu / A2SS

## Profile rails

### C-rails

Mounting rail with cable channel, for use as a module support rail in clamping systems or as a cross rail, available in different dimensions for various spans and loads depending on structural requirements. Rail bottom with slots 75 x 15 mm in 100 mm grid for easy fixing from above, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001362	C-rail 38-1,6 2.20 m	52	38		Alu
03-001364	C-rail 38-1,6 5.40 m	52	38		Alu
03-001441	C-rail 47-2 2.40 m	52	47		Alu
03-001366	C-rail 47-2 2.20 m	52	47		Alu
03-001368	C-rail 47-2 4.30 m	52	47		Alu
03-001369	C-rail 47-2 5.40 m	52	47		Alu
03-001371	C-rail 71-2 5.40 m	52	71		Alu
03-001372	C-rail 95-3 5.40 m	52	95		Alu
03-001363	C-rail 38-1,6 2.20 m black	52	38		Alu
03-001365	C-rail 38-1,6 5.40 m black	52	38		Alu
03-001367	C-rail 47-2 2.20 m black	52	47		Alu
03-001370	C-rail 47-2 5.40 m black	52	47		Alu

### C-N-rail

Mounting rail with cable channel and groove, for use as a module support rail in clamping systems or as a cross rail, side groove with fluting for easy fixing from the side, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001413	C-N-rail 37 2.20 m	52	37		Alu
03-001328	C-N-rail 37 5.40 m	52	37		Alu
03-001414	C-N-rail 37 2.20 m black	52	37		Alu
03-001412	C-N-rail 37 5.40 m black	52	37		Alu

### N-rails

Mounting rail with groove for use as a cross rail, available in different dimensions for various spans and loads depending on structural requirements, side groove with fluting for easy fixing from the side.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001403	N-rail Eco 22 x 50 5.40 m	22	50		Alu
03-001404	N-rail Standard 30 x 50 5.40 m	30	50		Alu

## Profile rails

### Short rails trapezoidal metal sheet module landscape

Short rail with 5.2 mm perforation and pre-assembled sealant strip for mounting modules in landscape on trapezoidal sheet. Chipless mounting is accomplished using the trapezoidal sheet mounting screw.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000841	Short rail C24 with EPDM 125mm	52	24	20	Alu / EPDM
03-001108	Short rail C47 with EPDM 200mm	52	47	20	Alu / EPDM

### Short rails corrugated metal sheet module landscape

Short rail with 5.2 mm perforation and pre-assembled sealant strip for mounting modules in landscape on corrugated sheet, radius 39.4 mm. Chipless mounting is accomplished using the trapezoidal sheet mounting screw.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001223	Short rail C33 R39.4 with EPDM 125mm	39,4	33	20	Alu / EPDM

### Short rail trapezoidal and corrugated metal sheet module portrait

Short rail with 5.2 mm perforation and pre-assembled sealant strip for mounting modules in portrait on trapezoidal or corrugated sheet. Chipless mounting is accomplished using the trapezoidal sheet mounting screw.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001081	Short rail C24 with EPDM 385mm	52	24	12	Alu / EPDM
03-000873	Short rail C47 with EPDM 385mm	52	47	12	Alu / EPDM

### Module support

Rear module support for light elevation on trapazoidal sheet, for insertion in short profiles 385mm.

Art.-Nr.	Bezeichnung	a in mm	b in mm	c in mm	Material
03-001516	Module support 5° high	60	58	140	Alu
03-000517	Module support 5° low	60	58	65	Alu

# Profile connectors and expansion joints

## Rail connector C-rail 38

Connector C-rail 38, l = 325 mm, with two round-head screws and locking nuts with 18 AF hexagon drive, available as expansion joint construction with four round-head screws. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001105	Rail connector set C38	35	28.5	50	Alu / A2SS
03-001106	Expansion joint C38	35	28.5	50	Alu / A2SS

## Rail connector C-rail 47 profile chambers

Connector C-rail 47, l = 200 mm, screw connection with four self-drilling screws with 8 AF hexagon drive. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000925	Rail connector set C47 S	30			Alu / A2SS

## Rail connector C-rail 47

Connector C-rail 47, l = 325 mm, with two round-head screws and locking nuts with 18 AF hexagon drive, available as expansion joint construction with four round-head screws. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000001	Rail connector set C47	52	40	50	Alu / A2SS
03-000138	Expansion joint C47	52	40	50	Alu / A2SS

## Rail connector C-rail 71

Connector C-rail 71, l = 490 mm, with four round-head screws, washers and locking nuts with 18 AF hexagon drive, available as expansion joint construction. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000151	Rail connector set C71	52	67	50	Alu / V2A
03-000265	Expansion joint C71	52	67	50	Alu / V2A

## Profile connectors and expansion joints

### Rail connector C-rail 95

Connector C-rail 95, l = 500 mm, with four round-head screws, washers and locking nuts with 18 AF hexagon drive, available as expansion joint construction. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000130	Rail connector set C95	52	70	50	Alu / V2A
03-000173	Expansion joint C95	52	70	50	Alu / V2A

### Rail connector C-N-rail 37

Connector C-N-rail 37, l = 250 mm, screw connection with two thin sheet screws with 8 AF hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001347	Rail connector set C-N 37 S	17,5	19	250	Alu / V2A

### Rail connector N-rail

Connector N-rail, l = 200 mm or l = 150 mm, screw connection with two self-drilling screws with 8 AF hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000500	Rail connector set N Eco	19	38	200	Alu / V2A
03-000524	Rail connector set N Standard	27	41	150	Alu / V2A

## Cross rail connector

### Connection insertion rail on C-rail and C-N-rail

Connector for fixing insertion rails on C-rails and mounting triangles, locking nut with 13 AF hexagon drive, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000321	Cross rail connector set C IR M8	66	50	13	Alu / A2SS

### Connection insertion rail on N-rail

Connector for fixing insertion rails on N-rails, slot bolt M8 and locking nut with 13 AF hexagon drive, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000409	Cross rail connector set N IR M8	66	50	13	Alu / A2SS

### Connection C-rail on C-rail or C-N-rail

Connector for fixing C-rails to create a cross rail configuration, locking nut M14 with 18 AF hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000226	Cross rail connector set C M14	30	46	34	Alu / A2SS

### Connection N-rail on N-rail

Connector for fixing C-N-rail or N-rails to create a cross rail configuration, slot bolt M8 13 AF hexagon drive and slot nut, l = 30 mm or l = 65 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000599	Cross rail connector set N 30 mm M8	35	30	22	Alu / A2SS
03-000904	Cross rail connector set N 65 mm M8	35	65	22	Alu / A2SS

Green is not only our colour  
- it is our mission

# Module protection and rail top cover

## Top cover C-rail and C-N-rail

Cover to clip on to the C-rail and C-N-rail if using as cable channel, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000134	Top cover C-rail / C-N-rail 2.00 m	50	3		Alu
03-001469	Top cover C-rail / C-N-rail 2.00 m black	50	3		Alu

## End caps C-rail

End cap in black for C-rail 38 and C-rail 47, UV and weather resistant.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001523	End cap C-rail C38 black	57	54	80	PP
03-001522	End cap C-rail C47 black	57	63	80	PP

## End cap C-N-rail

End cap in black for C-N-rail 37, UV and weather resistant.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001343	End cap C-N 37 black	57	52	80	PP

## End caps N-rail

End cap in black for N-rails, UV and weather resistant.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000527	End cap N-rail Eco	22	50		PA 6.6
03-000529	End cap N-rail Standard	30	50		PA 6.6

Module protection and rail top cover

Slip guards and end caps C-rail

Slip guard for fixing modules mounted in landscape or as an end cap for the C-rail, available in blank or black. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000259	Slip guard/ End cap set C47	53	80	80	Alu / A2SS
03-000261	Slip guard/ End cap set C71	53	100	80	Alu / A2SS
03-000263	Slip guard/ End cap set C95	53	130	80	Alu / A2SS
03-000260	Slip guard/ End cap set C47 black	53	80	80	Alu / A2SS
03-000262	Slip guard/ End cap set C71 black	53	100	80	Alu / A2SS
03-000264	Slip guard/ End cap set C95 black	53	130	80	Alu / A2SS

Slip guard short profile trapezoidal short rail

Slip guard with 18 AF locking nut for securing the modules mounted in landscape on short rails.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000233	Slip guard set for short rail profile M14	30	30	53	Alu / A2SS

Module slip guards portrait orientation

Slip guard for fixing modules with and without mounting holes for mounting modules in portrait. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000006	Module slip guard set M6	25			V2A
03-000007	Module slip guard set M8	25			V2A
03-000372	Module slip guard set box frame	20			V2A

## Module protection and rail top cover

### Edge stop elevation profile pair

Edge stop for elevation profile pair H136, fixing with 8 AF hexagon drive thin sheet screw.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000593	Edge stop set elevation profile pair H136	71	88		Alu / A2SS

## Module elevation

### Elevation profile pairs

Articulated jointed rail pairs as foot and head rails, for variable module elevation at an angle of approx. 3 – 18° by combining two rail pairs.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000646	Elevation profile pair H45 6.00m	56	45		Alu
03-000470	Elevation profile pair H136 6.00m	56	136		Alu

### Base profile elevation

Module support rail for module elevation on flat roofs as well as for trapezoidal sheet, corrugated and sandwich roofs.

Item no.	Bezeichnung	a in mm	b in mm	c in mm	Material
03-000193	Base profile 6.12m	130	67	27	Alu
03-000194	Base profile 5.06m	130	67	27	Alu
03-000195	Base profile 3.37m	130	67	27	Alu

Profile connectors and expansion joints

Rail connector elevation profile pair H45

Connector elevation profile pair H45, l = 160 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000496	Rail connector set elevation profile pair H45	5	22		Alu

Rail connector elevation profile pair H136

Connector elevation profile pair H136, l = 150 mm, screw connection with four thin sheet screws with 8 AF hexagon drive.

Art.-Nr.	Designation	a in mm	b in mm	c in mm	Material
03-000525	Rail connector set elevation profile pair H136	12	50		Alu / V2A

## Module elevation

### Module bracket front mounting hole

Front module support for flat roof system generation I or elevation on pitched roof, to connect to the module frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000078	Module bracket set front	100	8	4	Alu / A2SS

### Module bracket set direct box frame

Front module support for flat roof system generation I or elevation on pitched roof, to directly connect to the module frame without frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000239	Module bracket set front direct (box fr.)	50	36	5,5	Alu / A2SS

### Module bracket back mounting hole

Rear module support for flat roof system open or elevation on pitched roof, to connect to the module frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000061	Module bracket set back	65	8	4	Alu / A2SS

### Module support 13° - 40° open

Rear module support for flat roof system open or elevation on pitched roof, in different lengths to elevate modules, continuous adjustable elevation angle, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000070	Module support set 200mm	200	100	100	Alu
03-000071	Module support set 280mm	280	100	100	Alu
03-000083	Module support set 360mm	360	100	100	Alu
03-000022	Module support set 440mm	440	100	100	Alu
03-000072	Module support set 520mm	520	100	100	Alu

## Module attachment

### Middle clamps C-rail and C-N-rail

Middle clamp for fixing the modules on the C-rail or C-N-rail. Installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30–42 mm or 43–52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001345	Middle clamp 30-42 Set C	52	11,4	30–42	Alu / A2SS / PE
03-000285	Middle clamp 43-52 Set C	52	11,4	43–52	Alu / A2SS / PE
03-001346	Middle clamp 30-42 Set C black	52	11,4	30–42	Alu / A2SS / PE
03-000286	Middle clamp 43-52 Set C black	52	11,4	43–52	Alu / A2SS / PE

### End clamps C-rail and C-N-rail

End clamp for fixing the modules on the C-rail or C-N-rail. Installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30–42 mm or 43–52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001236	End clamp 30-42 Set C	52	14	30–42	Alu / A2SS / PE
03-000287	End clamp 43-52 Set C	52	14	43–52	Alu / A2SS / PE
03-001237	End clamp 30-42 Set C black	52	14	30–42	Alu / A2SS / PE
03-000288	End clamp 43-52 Set C black	52	14	43–52	Alu / A2SS / PE

### Middle clamp frameless 6.8 - 8.0 C-rail and C-N-rail

Middle clamp for fixing frameless modules on the C-rail or C-N-rail, permissible glass thickness 6.8–8.0 mm, completely pre-assembled. Clamping screw with AF 8 hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000312	Middle clamp FL 6.8-8.0 mm Set C	80	45	6,8–8,0	Alu / EPDM

### End clamp frameless 6.8 – 8.0 C-rail and C-N-rail

End clamp for fixing frameless modules on the C-rail or C-N-rail, permissible glass thickness 6.8–8.0 mm, completely pre-assembled. Clamping screw with AF 8 hexagon drive.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000317	End clamp FL 6.8 – 8.0 mm Set C	80	30,5	6,8–8,0	Alu / EPDM

## Module attachment

### Insertion rails framed modules

Insertion rail for inserting framed modules with a frame height of 30 - 50 mm, available in blank or black anodised variations. The actual frame height of the module corresponds to the specified dimension b minus 1.3 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001416	Insertion rail 30 5.40m	56	31,3	50	Alu
03-001373	Insertion rail 32 5.40m	56	33,3	52	Alu
03-001379	Insertion rail 35 5.40m	56	36,3	55	Alu
03-001381	Insertion rail 36 5.40m	56	37,3	56	Alu
03-001383	Insertion rail 38 5.40m	56	39,3	58	Alu
03-001387	Insertion rail 40 5.40m	56	41,3	60	Alu
03-001389	Insertion rail 41 5.40m	56	42,3	61	Alu
03-001391	Insertion rail 42 5.40m	56	43,3	62	Alu
03-001393	Insertion rail 43 5.40m	56	44,3	63	Alu
03-001395	Insertion rail 45 5.40m	56	46,3	65	Alu
03-001397	Insertion rail 46 5.40m	56	47,3	66	Alu
03-001399	Insertion rail 50 5.40m	56	51,3	70	Alu
03-001698	Insertion rail 30 2.40m black	56	31,3	50	Alu
03-001417	Insertion rail 30 5.40m black	56	31,3	50	Alu
03-001374	Insertion rail 32 5.40m black	56	33,3	52	Alu
03-001696	Insertion rail 35 2.40m black	56	36,3	55	Alu
03-001380	Insertion rail 35 5.40m black	56	36,3	55	Alu
03-001382	Insertion rail 36 5.40m black	56	37,3	56	Alu
03-001384	Insertion rail 38 5.40m black	56	39,3	58	Alu
03-001388	Insertion rail 40 5.40m black	56	41,3	60	Alu
03-001390	Insertion rail 41 5.40m black	56	42,3	61	Alu
03-001392	Insertion rail 42 5.40m black	56	43,3	62	Alu
03-001394	Insertion rail 43 5.40m black	56	44,3	63	Alu
03-001396	Insertion rail 45 5.40m black	56	46,3	65	Alu
03-001398	Insertion rail 46 5.40m black	56	47,3	66	Alu
03-001400	Insertion rail 50 5.40m black	56	51,3	70	Alu

### Insertion rails snow guard

Insertion rail for inserting framed modules with a frame height of 30mm, 35 mm or 40 mm for heavy snow loads, with the option of attaching a snow guard system.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001617	Insertion rail snow guard 30 5.40m	69	69	31,3	Alu
03-001618	Insertion rail snow guard 35 5.40m	69	74	36,3	Alu
03-001619	Insertion rail snow guard 40 5.40m	69	79	41,3	Alu
03-001620	Insertion rail snow guard 30 5.40m sw	69	69	31,3	Alu
03-001621	Insertion rail snow guard 35 5.40m sw	69	74	36,3	Alu
03-001622	Insertion rail snow guard 40 5.40m sw	69	79	41,3	Alu

# Module attachment

## Rail connector insertion rail

Connector insertion rail for framed modules, l = 150 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000648	Rail connector set IR	65	18		Alu / A2SS
03-000499	Rail connector set IR black	65	18		Alu / A2SS

## Rail connector insertion rail trapezoidal sheet bracket and seamed metal roof

Connector insertion rail for framed modules, l = 100<sup>®</sup>mm, for direct mounting on trapezoidal sheet.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000647	Rail connector IR 5 x 100 A2SS	5			A2SS

## Rail connector insertion rail snow guard

Connector insertion rail Plus for framed modules, l = 200 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000471	Rail connector set IR snow guard	10	30		Alu

# Module attachment

## Support rail module insertion system

Support rail to brace modules between the insertion rails of a module row in case of heavy snow loads.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001442	Support rail IR 5.40m	39	17		Alu

## Edge stops insertion rail

Edge stop for insertion rails, fixing with tapping screw Torx drive 30.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000691	Edge stop set IR	49	49		Alu / A2SS
03-000693	Edge stop set IR black	49	49		Alu / A2SS

## Edge stop insertion rail snow guard

Edge stop for insertion rails Plus, fixing with self-drilling screw Torx drive 30.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000732	Edge stop set IR snow guard	75	75		Alu / A2SS
03-001623	Edge stop set IR snow guard black	75	75		Alu / A2SS

# Accessories and optional components

## Connector optimizer

Connector set for fixing parts as optimizers to the C-rail, C-N-rail or short rail.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000329	Mounting Set C-Rail M8				Alu / A2SS
03-000373	Plate 50x50x3 D8,5 Alu				Alu

## Slot nut

For connecting C-N-rails or N-rails to the roof hook side-fix.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000682	Slot bolt M8 with serrated locking nut	22			A2SS
03-001658	Slot bolt M8 N35h with serrated locking nut	32			A2SS
03-001657	Slot bolt M8 N35v with serrated locking nut	52			A2SS

## Accessories and optional components

### Contact latch module clamp

Contact latch for equipotential bonding / lightning current carrying capacity between module frame and mounting system. Suitable for all middle clamps of pitched roof and flat roof II.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001185	Contact latch module clamp	20	24	10	A2SS

### Grounding connector C-rail

Grounding connector set sufficient for clamping cables of 6-16 mm<sup>2</sup> or wire with diameter 6-10mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000012	Grounding connector C-rail				A2SS
03-001529	Grounding connector C-rail (new)				A2SS

### Grounding connector C-N-rail / N-rail

Grounding connector set sufficient for clamping cables of 6 - 50 mm<sup>2</sup> or wire with diameter 2,8 - 8 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001437	Grounding connector C-N-rail / N-rail				A2SS

### L adapter set

L adapter set for fixing N-rails to C-shaped hooks.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000530	L adapter set N-rail to C-shape roof hook				Alu / A2SS

## Accessories and optional components

### Metal shingle

Aluminium metal shingle with sealing for shingle roofing e. g. bitumen, fibre cement or slate, in use in combination with stock screws.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000535	Metal shingle 280x230 mm, with sealing	280	230	70	Alu / EPDM
03-000536	Metal shingle 390 x 230 mm, with sealing	390	230	100	Alu / EPDM
03-000537	Metal shingle 580 x 230 mm, with sealing	580	230	130	Alu / EPDM
03-001693	Metal shingle 720 x 230 mm, with sealing	720	240	40	Alu / EPDM

### Clip

Cable clip, for cable bundle up to 10 mm diameter, with clip to connect to the module frame or similar.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000099	Cable clip d=10mm				PA

### Cable tie with and without clip

Black polyamide plastic, UV-resistant for tool-free fastening on rails, for 1-3 mm or 3-6 mm metal flange.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000504	Cable-tie black, 140 mm				PP
03-000505	Cable-tie black, 200 mm				PP
03-000506	Cable-tie black, 280 mm				PP
03-000507	Cable-tie black, 360 mm				PP
03-000508	Cable-tie clip for profile flange 1 - 3 mm				PP
03-000509	Cable-tie clip for profile flange 3 - 6 mm				PP

## Accessories and optional components

### EPDM sealant strip

EPDM sealant stripe as a safety and sealant layer below the C-rail on trapezoidal roofs.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000082	EPDM sealant strip for C-rail 50x35 mm				EPDM

### EPDM tape

EPDM tape as a protection layer below insertion rails on trapezoidal. To use in combination with trapezoidal sheet bracket.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000627	EPDM tape 10.000 x 54 x 3 mm IR				EPDM

### EPDM sealant strip

EPDM tape as a protection layer below insertion rails on trapezoidal, 100 pcs per roll.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000633	EPDM sealant strip 70 x 28 x 2 mm IR				EPDM

### EPDM round seal

EPDM round sealant d = 25mm in use with the stock screw set (for wood) 8.4 M10 respectively stock screw set (for steel) 8.0 M10.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000184	EPDM round seal d = 25mm				EPDM

# Accessories and optional components

## EPDM-T protection insertion rails

EPDM T protection for fixing modules in insertion rails with minimal module slope, for framed modules.

Art.-Nr.	Bezeichnung	a in mm	b in mm	c in mm	Material
03-000631	EPDM-T protection IR	84	17		EPDM

## Tools

Item no.	Designation	Roof type*	Picture

## Flat roof | East-West-System III "The shortcut"

Modular designed clamping system with modules installed in landscape

### The shortcut - The fast way to lots of kWp

- Maximum utilisation of the roof surface and evenly distributed electricity production
- Efficient use of space thanks to 10° module inclination and landscape installation
- cross connections at module field edges for high stability
- suitable for wide modules

### Product variants

- Only two clamps for all frame heights in blank and black anodized (can also be used in the novotegra pitched roof systems)
- Many optional components e.g. cable channels, ballast troughs and ballast cantilevers

## YOUR BENEFITS

- Simple and quick installation due to high degree of pre-fabrication and tool-free click system
- Low logistical effort and optimal handling thanks to short components
- Wind tunnel tested aerodynamics

Click mechanism for toolless connection

Module field edge with end clamp, base foot and support brace

Base element with click-fit module supports and crossbar

## Flat roof system | east-west system III

## Pic Designation

- | Pic | Designation   |
|-----|---|
| 1   | <b>Base element east-west</b> <ul style="list-style-type: none"> <li>▪ toolless clickfit of module supports</li> <li>▪ toolless mounting of connector and edge closure sets</li> </ul>                  |
| 2   | <b>Connector set east-west</b> <ul style="list-style-type: none"> <li>▪ for connection of two base elements east-west</li> <li>▪ with integrated (pre-assembled) base feet</li> </ul>                   |
| 3   | <b>Edge closure set</b> <ul style="list-style-type: none"> <li>▪ for closures at module field edges</li> <li>▪ with integrated (pre-assembled) base foot</li> </ul>                                     |
| 4   | <b>Module support 10°</b> <ul style="list-style-type: none"> <li>▪ toolless clickfit into the base element</li> <li>▪ with integrated holder for cable channel and mounting-set optimizer FR</li> </ul> |

Cable channel can take cables and plugs

Optional ballast cantilever on module field edge

## Flat roof | east-west system II "The allrounder"

### Our solution for east-west direction

- maximum roof surface utilisation and evenly distributed electricity production
- optimum elevation angle 13° for good efficiency and self-cleaning
- cross connections at module field edges for high stability
- high flexibility thanks to individually selectable row distance
- connected module fields up 34 m length possible

### Product variants

- different base troughs: blank, with PE separation layer or with PE pads for cross drainage
- clamps for long frame side, e.g. third base trough for extreme snow and wind loads
- double support for heavy loads

### Your benefits

- wind-tunnel tested aerodynamics
- wide and continuous base troughs for optimum load redistribution and low surface pressure
- module supports and base feet with click-fit function – no screwing necessary
- suitable for wide modules

Base trough with cover and cable bracket

Base foot in base trough with connector

Wind deflector East-West for roof obstacles with module support double

## Flat roof | south system II "The allrounder"

Flat roof system closed II

### Our solution for south-facing direction

- optimum module orientation towards south
- optimum elevation angle 13° for good efficiency and self-cleaning
- cross connections at module field edges for high stability
- high flexibility thanks to individually selectable row distance
- connected module fields up 34m length possible

### Product variants

- different base troughs: blank, with PE separation layer or with PE pads for cross drainage
- clamps for long frame side, e.g. third base trough for extreme snow and wind loads
- wind deflectors for 72-cell modules (up to 2,18m length)

### Your benefits

- wind-tunnel tested aerodynamics
- wide and continuous base troughs for optimum load redistribution and low surface pressure
- module supports and base feet with click-fit function – no screwing necessary
- suitable for wide modules

Base trough extension

Wind deflector and module support

Base trough with cover and cable bracket

## Flat roof | east-west system | "The rock"

Flat roof system east-west | for gravel

### Our flexible solution for east-west-facing direction

- maximum roof surface utilisation and evenly distributed electricity production
- optimum elevation angle 13° for good efficiency and self-cleaning
- cross connections at module field edges for high stability
- high flexibility thanks to individually selectable row distance
- connected module fields up 34 m length possible

### product variants

- different base troughs: blank, with PE separation layer or with PE pads for cross drainage
- gravel base trough 230-90 for convenient ballasting with existing gravel

### Your benefits

- wind-tunnel tested aerodynamics
- wide and continuous base troughs for optimum load redistribution and low surface pressure
- stability and flexibility thanks to cross layer system and module clamping in the optimum clamping range
- suitable for wide modules

Flat roof system closed I on gravel

Everything in the green

## Green roof | East-west system

Clamping system with modules installed in portrait

Biotope, water storage, air conditioning – the all-in-one package for your roof!

- Suitable for a wide range of green roofs
- Retention effect: Time-delayed water run-off relieves the sewage system – especially during heavy rainfall
- Natural cooling of the ambient temperature and the PV system
- Sustainable production made in Germany from recycled plastic

### Product variants

- Different layouts possible with the same components: east-west, butterfly, south-facing
- Only two clamps for all frame heights in blank and black anodized
- Many optional components for the perfect system: top cover C-rail, grounding connector, contact latch, optimiser fastening, etc.

## YOUR BENEFITS

- Efficient use of space thanks to 10° module inclination and portrait installation
- Large substrate plates to offer sufficient space for ballasting
- Wind-tunnel-tested aerodynamics
- Sufficient distance from the roof surface for plant growth and sliding snow
- Interconnected panels for quick and easy assembly

Butterfly variant

South-facing variant

C-rail also acts as a cable channel

## Green Roof | East-west system

novotegra for flat roof –  
the perfect solution for  
every project size

# Mounting solutions for flat roof

Foil roof: east-west system II with third base trough

On gravel: east-west system I with north-south orientation on gravel

On gravel: east-west system II

On gravel: south system I with gravel as ballast

## Your benefits

- aerodynamic system tested in a wind tunnel – reliable security
- only a handful of components which are quickly and easily assembled – a flexible system
- wide and continuous base troughs for optimum load redistribution and low surface pressure
- alternative solutions with stable cross layer systems and elevation triangles

Foil roof: south system closed II with third base trough

Foil roof: east-west system I with north-south orientation

# 4

Single items  
flat roof

## Flat roof III: Single items

### Base element east-west

Base element for flat roof system III e/w for click-fit of the module supports and connection of connector and edge closure sets. Compatible for module widths 995-1070mm or module widths 1071-1145mm

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001536	Base element e/w 690mm	150	40		Alu / A2SS / PE
03-001537	Base element e/w 840mm	150	40		Alu / A2SS / PE

### Connector set east-west

Connector set e/w for flat roof system III with integrated base feet as front module support in installation middle areas.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001533	Connector set e/w 1940mm	147	101		Alu / A2SS / PP

### Edge closure set

Edge closure set for flat roof system III with integrated base foot as front module support at installation edges.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001532	Edge closure set 970mm	147	101		Alu / A2SS / PP

### Module support

Rear module support for flat roof system III, to clip into the base element and to connect the crossbar and/or cable channel module support.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001539	Module support 10°	270	60		Alu

Flat roof III: Single items

Crossbar

Crossbar for load transfer, connected to the module supports of flat roof system III.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001649	Crossbar 2.00m	120	25		Alu
03-001679	Crossbar 2.40m	120	25		Alu

Support brace

Support brace for load transfer, fixed on the edge closure sets of flat roof system III.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001680	Support brace 20x20x1.5 2.00m	20	20		Alu
03-001530	Support brace 20x20x1.5 2.40m	20	20		Alu

## Flat roof III: Single items

### Middle clamps C-rail

Middle clamp for fixing the modules, installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30–42 mm or 43–52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001345	Middle clamp 30-42 Set C	52	11,4	30–42	Alu / A2SS / PE
03-000285	Middle clamp 43-52 Set C	52	11,4	43–52	Alu / A2SS / PE
03-001346	Middle clamp 30-42 Set C black	52	11,4	30–42	Alu / A2SS / PE
03-000286	Middle clamp 43-52 Set C black	52	11,4	43–52	Alu / A2SS / PE

### End clamps C-rail

End clamp for fixing the modules, installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30–42 mm or 43–52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001236	End clamp 30-42 Set C	52	14	30–42	Alu / A2SS / PE
03-000287	End clamp 43-52 Set C	52	14	43–52	Alu / A2SS / PE
03-001237	End clamp 30-42 Set C black	52	14	30–42	Alu / A2SS / PE
03-000288	End clamp 43-52 Set C black	52	14	43–52	Alu / A2SS / PE

## Flat roof III: Optional components

### Ballast trough

Ballast trough for flat roof system III to clip into the connector and/or edge closure sets for secure placement of large format ballast.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001681	Ballast trough 530mm	151	63	120	Alu / PE

## Flat roof III: Single items

### Ballast cantilever

Ballast cantilever for flat roof system III to redistribute ballast at installation edges. Usable length 500mm and 1000mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001541	Ballast cantilever 650mm	155	120	47	Alu / PE
03-001542	Ballast cantilever 1150mm	155	120	47	Alu / PE

### Cabel channel

Cable channel for flat roof system III to be connected to the base elements and to lay cables lengthwise and connected to the module supports and to lay cables crosswise.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001569	Cable channel base element 1250mm	73	28	33	Alu
03-001544	Cable channel module support 2.00m	73	28	33	Alu
03-001686	Cable channel module support 2.40m	73	28	33	Alu

### Cover cable channel

Cover for the cable channels of flat roof system III to protect the cables from UV radiation and weather conditions.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001591	Cover cable channel 1250mm	77	16		Alu

### Surface extension

Surface extension for flat roof system III to increase the load introduction surface.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001632	Surface extension 180x150mm	180	150	55	PP

## Flat roof I and II: Profile rails

### Base troughs flat roof - without protection layer

Base trough for flat roof elevations for click-fit of the base feet and module supports (flat roof system II) or for fixing the base profile (flat roof system I) and inserting the ballast.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001407	Base trough 150-30 2.20m	150	30	120	Alu
03-000087	Base trough 150-30 6.00m	150	30	120	Alu

### Base troughs flat roof - with protection layer

Base trough for flat roof elevations for click-fit of the base feet and module supports (flat roof system II) or for fixing the base profile (flat roof system I) and inserting the ballast. Constructed as a base with a pre-assembled 6 mm separation layer.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001408	Base trough 150-30 w/protection layer 2.20m	150	30	120	Alu / PE
03-000989	Base trough 150-30 w/protection layer 6.00m	150	30	120	Alu / PE

### Base troughs cross drainage flat roof

Base trough for flat roof elevations for click-fit of the base feet and module supports (flat roof system II) or for fixing the base profile (flat roof system I) and inserting the ballast. Pre-assembled with PE pads, grid 610 mm, as separation or drainage layer when placed transversely to the roof pitch.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001409	Base trough 150-30 w/cross drainage 2.20 m	150	50	610	Alu / PE
03-000879	Base trough 150-30 w/cross drainage 6.00 m	150	50	610	Alu / PE

### Top cover base trough

Cover for the base trough if using as cable channel.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000133	Top cover base trough 150-30 3.00 m	154	15		Alu

## Flat roof I and II: Profile rails

### Support brace east-west II

Support brace for load transfer, fixed on the flat roof module support sets east-west II.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001474	Support brace 20 × 20 × 1.5 5.40 m	20	20		Alu
03-001443	Support brace 20 × 20 × 1.5 4.45 m	20	20		Alu
03-001474	Support brace 20 × 20 × 1.5 1.85 m	20	20		Alu

### Ballast troughs base trough

Ballast trough to clip into the base trough and secure placement of large format ballast. Constructed as a ballast trough without or with a pre-assembled separation layer.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000131	Ballast trough 120-30 530 mm	144	32	120	Alu
03-000977	Ballast trough 530 mm w/protection layer	144	32	120	Alu / PE
03-000910	Ballast trough w/cross drainage 530 mm	144	32	120	Alu / PE

### Gravel base trough

Base trough for flat roof elevations to fix the base profiles and for ballasting with existing gravel (flat roof I).

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000092	Base trough 230-90 6.00 m	230	90	190	Alu

### Base profile elevation

Module support rail for module elevation on flat roofs (flat roof I) as well as for trapezoidal sheet, corrugated and sandwich roofs.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000193	Base profile 6.12 m	130	67	27	Alu
03-000194	Base profile 5.06 m	130	67	27	Alu
03-000195	Base profile 3.37 m	130	67	27	Alu

## Flat roof I and II: Rails connectors

### Base trough connector 150-30 I

Connector Base trough 150-30, l = 380 mm. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000370	Base trough connector set 150-30 I	16	26		Alu

### Base trough expansion joint

Base trough expansion joint 150-30, l = 380 mm, single-sided with slots.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000128	Base trough expansion joint 150-30	150	25	80	Alu

### Angled base trough connector 150-30

Connector base trough, l = 380 mm, for ridge and throat formation 2° – 5°.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000161	Angled base trough connector 150-30 3°	25	25	180	Alu

### Coupling profile

Coupling profile for reducing the ballast of adjacent module fields with expansion gaps in between on flat roof elevations through coupling of the bordering base troughs (flat roof II).

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000929	Coupling profile C47 385 mm	52	47	12	Alu

# Flat roof I and II: Rails connectors

## Base profile connector

Connector base profile, l = 380 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000021	Base profile connector	41	68		Alu

## Base profile expansion joint

Expansion joint construction single-sided with slots, l = 380 mm

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000129	Base profile expansion joint	41	68	80	Alu

## Angled base profile connector (rise)

Connector base profile, l = 380 mm, for ridge formation 2° – 5°.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000162	Angled base profile connector 3° (rise)	41	68	150	Alu

## Angled base profile connector (dip)

Connector base profile, l = 380 mm, for throat formation 2° – 5°.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000163	Angled base profile connector 3° (dip)	41	68	150	Alu

## Flat roof II: Module elevation and module attachment

### Base foot

Front module support of the flat roof system generation II, to clip into the base trough.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000343	Base foot set 13° 150-30	80	37	53	Alu

### Module support east-west II

Rear module support for flat roof system east-west II, to clip into the base trough and to connect the support brace, constructed as a one-hip or two-hip support.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001324	Module support set 13° 150-30 e/w single	255	60	125	Alu
03-001325	Module support set 13° 150-30 e/w double	255	60	125	Alu

### Wind deflector east-west II

Wind deflector for flat roof system east-west II for mounting areas with missing module due to obstacles..

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001465	Wind deflector 13° 2.35 m e/w	241	175	65	Alu

### Module support closed II

Rear module support of the closed flat roof system II, to clip into the base trough and to fix the wind deflector 13° on it.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001243	Module support set 13° 150-30	260	104	60	Alu

## Flat roof II: Module elevation and module attachment

### Wind deflector closed II

Wind deflector for flat roof system closed II for wind deflection and ballast reduction.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001281	Wind deflector 13° 1.95 m	270	70		Alu
03-001439	Wind deflector 13° 2.35 m	270	70		Alu

### Flat roof mid clamp (short side)

Middle clamp for flat roof system generation II, for fixing modules on the short side of the frame. Clamping screw with 8 AF hexagon drive, for frame heights of 28 – 42 mm or 43 – 52 mm, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000324	Flat roof mid clamp 30-42	52	11,4	28 – 42	Alu / A2SS
03-000323	Flat roof mid clamp 43-52	52	11,4	43 – 52	Alu / A2SS

### Flat roof end clamp (short side)

End clamp with T-adapter for flat roof system generation II, for fixing modules on the short side of the frame. Clamping screw with 8 AF hexagon drive, for frame heights of 28 – 33 mm, 34 – 42 mm or 43 – 52 mm, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000309	Flat roof end clamp (short side) 30-42	52	14	34 – 42	Alu / A2SS
03-000311	Flat roof end clamp (short side) 43-52	52	14	43 – 52	Alu / A2SS

### Flat roof end clamp (long side)

End clamp for flat roof system generation II, for fixing modules on the long side of the frame for example in the case of a third base trough. Clamping screw with 8 AF hexagon drive, for frame heights of 28 – 33 mm, 34 – 42 mm or 43 – 52 mm, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000396	Flat roof end clamp 30–42	52	14	34–42	Alu / V2A
03-000397	Flat roof end clamp 43–52	52	14	43–52	Alu / V2A

## Flat roof I: Module elevation and module attachment

### Module support east-west I

Module support for flat roof system east-west I for placement and fixing of the C-rail 71, available for the base trough 150-30 or the base trough 230-90.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000180	Module support set east-west 150	180	50	50	Alu / A2SS
03-000181	Module support set east-west 230	180	50	60	Alu / A2SS

### Module support closed I

Module support for flat roof system closed I, for fixed elevation of modules at an angle of 13° and to connect the wind deflector 13° on it, securing the modules on the long side of the frame, for frame heights 28 – 33 mm, 34 – 42 mm or 43 – 52 mm, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000330	Module support set 13° 28–33 mm	255	50		Alu / A2SS
03-000030	Module support set 13° 34–42 mm	255	50		Alu / A2SS
03-000031	Module support set 13° 43–52 mm	255	50		Alu / A2SS

### Wind deflector closed I

Wind deflector for flat roof system closed I for wind deflection and ballast reduction.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001464	Wind deflector 13° 2.35 m	330	23		Alu

# Flat roof I: Module elevation and module attachment

## Module bracket back east-west I

Module support for flat roof system east-west I, to clip into the C-rail, fixing the modules on the long side of the frame, for frame heights 28 – 33 mm, 34 – 42 mm or 43 – 52 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000322	Module bracket set back east-west 28–33 mm	159	52		Alu / A2SS
03-000098	Module bracket set back east-west 34–42 mm	159	52		Alu / A2SS
03-000095	Module bracket set back east-west 43–52 mm	159	52		Alu / A2SS

## Module bracket front mounting hole

Front module support for flat roof system generation I or elevation on pitched roof, to connect to the module frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000078	Module bracket set front	100	8	4	Alu / A2SS

## Module bracket set direct box frame

Front module support for flat roof system generation I or elevation on pitched roof, to directly connect to the module frame without frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000239	Module bracket set front direct (box fr.)	50	36	5,5	Alu / A2SS

## Flat roof I: Module elevation and module attachment

### Module bracket back mounting hole

Rear module support for flat roof system I open or elevation on pitched roof, to connect to the module frame holes, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000061	Module bracket set back	65	8	4	Alu / A2SS

### Module support 13° - 40° open

Rear module support for flat roof system I open or elevation on pitched roof, in different lengths to elevate modules, continuous adjustable elevation angle, completely pre-assembled.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000070	Module support set 200mm	200	100	100	Alu
03-000071	Module support set 280mm	280	100	100	Alu
03-000083	Module support set 360mm	360	100	100	Alu
03-000022	Module support set 440 mm	440	100	100	Alu
03-000072	Module support set 520mm	520	100	100	Alu

## Connector flat roof components

### Flat roof mounting screws

Self-drilling screw or thin sheet screw with 8 AF hexagon drive for connecting flat roof components.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000132	Flat roof mounting screw	25	6	16	A2SS
03-000383	Flat roof mounting screw cl 5.5	25	5.5	16	A2SS

## Accessories and optional components

### Mounting-set optimizer FR

Mounting-Set for flat roof system generation II with thin sheet screws with 8 AF hexagon drive, for fixing components like e.g. optimizer at module supports

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000337	Mounting-set optimizer FR				Alu / A2SS

### Grounding connector base trough

Grounding connector set sufficient for clamping cables of 6-16 mm<sup>2</sup> or wire with diameter 6-10 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000012	Grounding connector C-rail				A2SS

### Contact latch module clamp

Contact latch for equipotential bonding / lightning current carrying capacity between module frame and mounting system. Suitable for all middle clamps C-rail and flat roof.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001185	Contact latch module clamp				V2A

### Perforated Alu-tape

Perforated Alu-tape for boosting efficiency of mounting system parts to lightning current carrying capacity.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000924	Perforated Alu-tape 10.000 x 20 x 1 mm				Alu

## Accessories and optional components

### Aluminium edge protector

Aluminium edge protector, self-adhesive, to laminate base trough ends or sliced base trough connections.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000407	Aluminium edge protector self-adhesive				Alu

### PE-Pad

PE-Pad to laminate on site sliced base trough 150-30 for transverse drainage.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000831	PE-Pad 140 x 390 x 20 mm				PE

### Protective roof mat

Protective roof mat for laying below the base trough 230-90 as a protection layer for flat roof elevation.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000105	Protective roof mat 10.000 x 250 x 6 mm				

### Synthetic fibre strips

Synthetic fibre stripe as a separation layer between the protective roof mat and the flat roof membran in use with flat roof systems.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000113	Synthetic fibre strips 50.000 x 320				Vlies

# Accessories and optional components

## Cable bracket

Cable bracket for secure laying of cable in the base trough 150-30.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000175	Base trough cable bracket				PP

## Clip

Cable clip, for cable bundle up to 10 mm diameter, with clip to connect to the module frame or similar.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000099	Cable clip d=10 mm				PA
03-000510	Cable collector N-rail PA 4 cables				PP

## Cable tie with or without clip

Black polyamide plastic, UV-resistant for tool-free fastening on rails, for 1-3 mm or 3-6 mm metal flange.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000504	Cable-tie black, 140 mm				PP
03-000505	Cable-tie black, 200 mm				PP
03-000506	Cable-tie black, 280 mm				PP
03-000507	Cable-tie black, 360 mm				PP
03-000508	Cable-tie clip for profile flange 1 - 3 mm				PP
03-000509	Cable-tie clip for profile flange 3 - 6 mm				PP

## Mounting screw

Thin sheet screw without sealant, with 8 A/F hexagon drive for connecting flat roof components.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000778	Flat roof mounting screw cl 5.5				A2SS

## Green roof: Single items

### Substrate plate green roof

For the application of substrate for ballasting. Honeycomb structure in 10 cm grid for flexible positioning of supports. Made in Germany from recycled, UV-resistant plastic.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001507	Substrate plate green roof	1550	1550	52	Plastic
03-001508	Substrate plate 1/2 green roof	1550	750	52	Plastic

### Module support green roof

High stability thanks to form closure with the substrate plate. With practical carrying handle and display for substrate height.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001578	Module support high M12	625	300	200	Plastic / A2SS
03-001579	Module support low M12	462	300	200	Plastic / A2SS

### Module support mounting screw green roof

Countersunk screw with Torx 25 drive for connecting substrate plate and module support.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001493	Module support mounting screw 6x80 green roof	80	6		St. galv.

Green roof: Single items

C-rails

Mounting rail with cable channel, for use as a module support rail in clamping systems or as a cross rail, available in different dimensions for various spans and loads depending on structural requirements. Rail bottom with slots 75 x 15 mm in 100 mm grid for easy fixing from above, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001362	C-rail 38-1,6 2.20m	52	38		Alu
03-001364	C-rail 38-1,6 5.40m	52	38		Alu
03-001441	C-rail 47-2 2.40m	52	47		Alu
03-001366	C-rail 47-2 2.20m	52	47		Alu
03-001368	C-rail 47-2 4.30m	52	47		Alu
03-001369	C-rail 47-2 5.40m	52	47		Alu
03-001371	C-rail 71-2 5.40 m	52	71		Alu
03-001363	C-rail 38-1,6 2.20m black	52	38		Alu
03-001365	C-rail 38-1,6 5.40m black	52	38		Alu
03-001367	C-rail 47-2 2.20m black	52	47		Alu
03-001370	C-rail 47-2 5.40m black	52	47		Alu

Serrated self-locking flange nut M12

Serrated self-locking flange nut M12, AF 18 for connection of the C-rail to the module supports green roof.

Art.-Nr.	Bezeichnung	a in mm	b in mm	c in mm	Material
03-001280	Serrated self-locking flange nut M12				A2SS

## Green roof: Single items

### Rail connector C-rail 38

Connector C-rail 38, l = 325 mm, with two round-head screws and locking nuts with 18 AF hexagon drive, available as expansion joint construction with four round-head screws. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001105	Rail connector set C38	35	28.5	50	Alu / A2SS
03-001106	Expansion joint C38	35	28.5	50	Alu / A2SS

### Rail connector C-rail 47 profile chambers

Connector C-rail 47, l = 200 mm, screw connection with four self-drilling screws with 8 AF hexagon drive. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000925	Rail connector set C47 S	30			Alu / A2SS

### Rail connector C-rail 47

Connector C-rail 47, l = 325 mm, with two round-head screws and locking nuts with 18 AF hexagon drive, available as expansion joint construction with four round-head screws. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000001	Rail connector set C47	52	40	50	Alu / A2SS
03-000138	Expansion joint C47	52	40	50	Alu / A2SS

### Rail connector C-rail 71

Connector C-rail 71, l = 490 mm, with four round-head screws, washers and locking nuts with 18 AF hexagon drive, available as expansion joint construction. Alternative packing units see p. 87.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000151	Rail connector set C71	52	67	50	Alu / V2A
03-000265	Expansion joint C71	52	67	50	Alu / V2A

# Green roof: Single items

## Middle clamps for C-rail, C-N-rail und green roof module support rail

Middle clamp for fixing the modules to the C-rail, C-N-rail or green roof module support rail. Installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30– 42 mm or 43 – 52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001345	Middle clamp 30-42 Set C	52	11,4	30 – 42	Alu / A2SS / PE
03-000285	Middle clamp 43-52 Set C	52	11,4	43 – 52	Alu / A2SS / PE
03-001346	Middle clamp 30-42 Set C black	52	11,4	30 – 42	Alu / A2SS / PE
03-000286	Middle clamp 43-52 Set C black	52	11,4	43 – 52	Alu / A2SS / PE

## End clamps for C-rail, C-N-rail und green roof module support rail

End clamp for fixing the modules to the C-rail, C-N-rail or green roof module support rail. Installation-friendly thanks to click-in mechanism. Clamping screw with 8 AF hexagon drive. For frame heights of 30– 42 mm or 43 – 52 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001236	End clamp 30-42 Set C	52	14	30 – 42	Alu / A2SS / PE
03-000287	End clamp 43-52 Set C	52	14	43 – 52	Alu / A2SS / PE
03-001237	End clamp 30-42 Set C sw	52	14	30 – 42	Alu / A2SS / PE
03-000288	End clamp 43-52 Set C sw	52	14	43 – 52	Alu / A2SS / PE

## Tools

Item no.	Designation	Roof type*	Picture
03-000100	special nut socket 8 mm	all roofs	1
03-000011	special long nut socket 18 mm	ZD, W/S, Trapez, BF, FD I	2
03-000036	Torque wrench 1/4", 4-20 Nm	ZD, W/S, Trapez, BF, FD I + II	3
03-000037	Torque wrench 1/2", 20-100 Nm	ZD, W/S, Trapez, BF, FD I	4
03-000362	Mounting and removal tool 150-30	FD I + II	5
03-000602	Adapter 1/4" hexagonal to 1/2" square	ZD, W/S, Trapez, BF, FD I	6
03-000576	Assembling jig 800-1200 mm, C-shaped	ZD, W/S, Trapez, BF, FD I + II	7
03-000574	Assembling jig 1300–1700 mm, C-shaped	ZD, W/S, Trapez, BF, FD I + II	7
03-000577	Assembling jig 800–1200 mm, C-shaped	ZD, W/S, Trapez, BF, FD I + II	7
03-000575	Assembling jig 1300–1700 mm ohne, C-shaped	ZD, W/S, Trapez, BF, FD I + II	7

\* type of roof:

ZD = tile roof

W/S = corrugated and sandwich roof

Trapez = trapezoidal roof

BF = seamed roof

FD = flat roof

The perfect solution for  
every flat roof.

# 5

## Customized solutions

## Facade system

### Clear added value for your facade

- vertical photovoltaic system on the facade – separated from the building and well back-ventilated
- mounting exclusively on solid building walls (brick, concrete or stone) without external thermal insulation
- few individual components, entirely pre-assembled
- use of our proven insertion rail

### Product variants

- different rail height of the insertion rail 30-50 mm in black anodised or blank
- mounting modules in portrait or in landscape

### Your benefits

- high-end installation aesthetics and time-efficient mounting thanks to insertion technology
- tension-free and floating module mounting
- flexible system size: From a single module to the entire facade surface
- a construction with excellent rear ventilation which hangs in front of the building but does not touch it

Few components - simple and fast installation

Very good rear ventilation of the modules

Dowels with technical approval

## Facade: Single items

### Sockets insertion rail

Socket for fixing insertion rails on building facades, drill holes  $d = 11.5\text{ mm}$ , delivered with two facade dowels and the matching screws.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000580	Socket set 250 mm 11.5	250	60	200	Alu / A2SS
03-000581	Socket set 250 mm 11.5 black	250	60	200	Alu / A2SS

### Adapter plates module protection and perforated sheet fixing

Adapter plate for securing the modules against slipping and for fixing perforated sheets. Prefabricated with two 5 mm drill holes for attachment on the socket as well as two countersunk washers and four countersunk head self-drilling screws with Torx drive 25.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000384	Adapter plate set $80 \times 20 \times 8\text{ mm}$	80	20		Alu / A2SS
03-000404	Adapter plate set $80 \times 20 \times 8\text{ mm}$ black	80	20		Alu / A2SS

### Adapter plates edge stop and perforated sheet fixing

Adapter plate for lateral fixing of perforated sheets and as an edge stop for the modules. Prefabricated with a 7 mm drill hole for a countersunk head sheet screw with Torx drive 30 as well as two countersunk self-drilling screws with Torx drive 25.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000385	Adapter plate set $96 \times 20 \times 3\text{ mm}$	96	20		Alu / A2SS

### Perforated sheets

Perforated sheet to close the gap between the facade and module, enables rear ventilation and quick access to the rear of the modules, available in blank or black.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000548	Perforated sheet $1500 \times 120\text{ mm } 125^\circ$	83	38		St. galv.
03-000549	Perforated sheet $1500 \times 120\text{ mm } 125^\circ$ black	83	38		St. galv.

## Facade: Module attachment

### Insertion rails framed modules

Insertion rail for inserting framed modules with a frame height of 30 - 50 mm, available in blank or black anodised variations. The actual frame height of the module corresponds to the specified dimension b minus 1.3 mm.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001416	Insertion rail 30 5.40m	56	31,3	50	Alu
03-001373	Insertion rail 32 5.40m	56	33,3	52	Alu
03-001379	Insertion rail 35 5.40m	56	36,3	55	Alu
03-001381	Insertion rail 36 5.40m	56	37,3	56	Alu
03-001383	Insertion rail 38 5.40m	56	39,3	58	Alu
03-001387	Insertion rail 40 5.40m	56	41,3	60	Alu
03-001389	Insertion rail 41 5.40m	56	42,3	61	Alu
03-001391	Insertion rail 42 5.40m	56	43,3	62	Alu
03-001393	Insertion rail 43 5.40m	56	44,3	63	Alu
03-001395	Insertion rail 45 5.40m	56	46,3	65	Alu
03-001397	Insertion rail 46 5.40m	56	47,3	66	Alu
03-001399	Insertion rail 50 5.40m	56	51,3	70	Alu
03-001698	Insertion rail 30 2.40m black	56			Alu
03-001417	Insertion rail 30 5.40m black	56	31,3	50	Alu
03-001374	Insertion rail 32 5.40m black	56	33,3	52	Alu
03-001696	Insertion rail 35 2.40m black	56			Alu
03-001380	Insertion rail 35 5.40m black	56	36,3	55	Alu
03-001382	Insertion rail 36 5.40m black	56	37,3	56	Alu
03-001384	Insertion rail 38 5.40m black	56	39,3	58	Alu
03-001388	Insertion rail 40 5.40m black	56	41,3	60	Alu
03-001390	Insertion rail 41 5.40m black	56	42,3	61	Alu
03-001392	Insertion rail 42 5.40m black	56	43,3	62	Alu
03-001394	Insertion rail 43 5.40m black	56	44,3	63	Alu
03-001396	Insertion rail 45 5.40m black	56	46,3	65	Alu
03-001398	Insertion rail 46 5.40m black	56	47,3	66	Alu
03-001400	Insertion rail 50 5.40m black	56	51,3	70	Alu

### Insertion rails snow guard

Insertion rail for inserting framed modules with a frame height of 30mm, 35 mm or 40 mm for heavy snow loads, with the option of attaching a snow guard system.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-001617	Insertion rail snow guard 30 5.40m	69	69	31,3	Alu
03-001618	Insertion rail snow guard 35 5.40m	69	74	36,3	Alu
03-001619	Insertion rail snow guard 40 5.40m	69	79	41,3	Alu
03-001620	Insertion rail snow guard 30 5.40m sw	69	69	31,3	Alu
03-001621	Insertion rail snow guard 35 5.40m sw	69	74	36,3	Alu
03-001622	Insertion rail snow guard 40 5.40m sw	69	79	41,3	Alu

# Facade: Module attachment

## Rail connector insertion rail

Connector insertion rail for framed modules, l = 150 mm, available in blank or black anodised variations.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000648	Rail connector set IR	65	18		Alu / A2SS
03-000499	Rail connector set IR black	65	18		Alu / A2SS

# Accessories and optional components

## Connector optimizer

Connector set for fixing parts as optimizers to the C-rail, C-N-rail or short rail.

Item no.	Designation	a in mm	b in mm	c in mm	Material
03-000329	Mounting Set C-Rail M8				Alu / A2SS
03-000373	Plate 50x50x3 D8,5 Alu				Alu

## EPDM-T protection insertion rails

EPDM T protection for fixing modules in insertion rails with minimal module slope, for framed modules.

Art.-Nr.	Bezeichnung	a in mm	b in mm	c in mm	Material
03-000631	EPDM-T protection IR	84	17		EPDM

## In-roof system

### Slide in, screw down - done!

- black glass-foil modules with special frame
- shingled in-roof system (like tile)
- replaces conventional roofing
- european components and production

### product variants

- integration of skylights, blind modules or snow guard

### Your benefits

- all functions integrated in the frame
- very simple and fast assembly
- maximum aesthetics and flexibility
- optimum price / performance ratio

Premium energy saving roof windows

Integratable snow guard assembly

Blind module as a natural finish

In-roof system – aesthetic,  
intelligent and fast

# Terms of guarantee

## Product guarantee of novotegra GmbH

### Terms of guarantee

Under the following conditions, novotegra GmbH guarantees that under normal conditions of installation, application, operation and maintenance the components of the mounting system are free of construction, processing and material defects, for 12 years from the date of receipt.

Only novotegra GmbH may approve the warranty claim, and only through an independent test on-site. In the case of an approved warranty claim the liability is effected solely through a replacement delivery of the defective component. An approved warranty claim does not lead to an extension of the guarantee period, nor restart it. Subsequent to an accepted warranty claim, no further commitments and liabilities for additional and subsequent damages for novotegra GmbH exist. Thus a limitation of the legal warranty claims and the legal product liability is not given.

### Warranty claim

In order to file a claim within 12 years, you must notify novotegra GmbH in writing within two weeks of the detection of the fault and supply the purchase date, the original order confirmation and delivery note from novotegra GmbH as proof of purchase. The guarantor is novotegra GmbH, Eisenbahnstraße 150, 72072 Tübingen. The areas covered by this guarantee are based upon German law principles with the exclusion of UN purchasing law (CISG). Furthermore, our general terms and conditions apply in addition to this guarantee.

### Exclusions

Warranty claims under this guarantee cannot be made in case of:

- Faulty or incorrect installation according to the installation instructions.
- Unauthorised modifications or repairs.
- Inappropriate installation or use of the mounting system.
- Inappropriate transportation, storage or handling of the components.
- Optical deficiencies in so far as the appearance does not have any influence on the performance of the component.
- Incorrect installation according to the static calculations, or installation instructions of other components (for example, the solar module).
- Failure to comply with universally valid norms that have to be respected during installation.
- Damage through e.g. smoke, exceptional thermal stress, salt loading or other chemical products.
- Forces of nature (natural hazard), force majeure, vandalism, destruction through external influences and / or persons / animals.

The cost to novotegra GmbH for the removal and return of the defective component as well as for the re-assembly of the delivered component are excluded from this guarantee.

# Hand-in-hand for your success

You are looking for a proven mounting system for a pitched or flat roof?

We are happy to help you plan your installation and support you with our professional expertise.
